

RODANTES DE POLVO QUÍMICO SECO

EXTINTORES RODANTES

Contamos con una línea completa de extintores rodantes de polvo químico seco, los cuales se encuentran disponibles en 3 tipos y están diseñados para satisfacer las exigencias y necesidades de los incendios de gran propagación.

Diseñado para ser operado por una persona y de fácil transporte en los pasillos o en terrenos complicados.

Todos nuestros modelos son recargables y cumplen con todos nuestros requerimientos UL & DOT.

Algunos de nuestros modelos cuentan con la aprobación US Coast Guard.

Modelos estacionarios son disponibles.

APLICACIONES:

- Muelles de barcos, refinерías, plantas químicas, rampas aéreas, sitios de construcción remota, grandes laboratorios, plantas de proceso, áreas de carga y almacenamiento.
- No debe ser usado en equipos electrónicos sensibles.
- Las unidades rodantes están disponibles para fuegos de clase "A", "B" y "C".
