LIGHTS CATALOG

PELICAN POWERPACK

PELICAN™

DEAR CUSTOMER,

Lighting tools – they're a core element of every toolbox. They have a straightforward and simple purpose. Yet, when you're in a situation that requires a lighting tool, you want to make sure you have the right one. Pelican understands the critical importance of this tool. We provide a wide range of advanced lighting systems to support professionals, outdoor enthusiasts and everyday do-it-yourself hobbyists. Regardless of the purpose, our lighting tools and remote area lighting systems enable you to accomplish your tasks in a safer and more efficient manner.

With this perspective, Pelican relentlessly pursues innovation for new lighting tool products and manufacturing processes. We have adopted the ANSI FL-1 flashlight standards (see page 2) and continue to increase the number of industry leading safety certificates for specific models.

Our new lighting catalog features multiple technology advances. These include state of the art LED performance upgrades, new electronic features, upgraded safety certificates and enhanced packaging. We are committed to environmentally responsible manufacturing, in fact most of our lights use LED bulbs that help protect our planet. LEDs are long lasting, promote extended battery life and allow for the latest technological advancements.

From basic models to the high-performance 9410L LED Lantern (our brightest handheld flashlight to date) and the 9470 Remote Area Lighting System (which delivers 12,000 lumens), we are ready to provide world-class support for our dealers and end users across the globe. And, all of this comes with Pelican's industry-leading guarantee of excellence.

We invite you to look through our new catalog and discover the ideal lighting tools for your specific needs.

PERFORMANCE

STANDARDS AND RATINGS
(Applicable to flashlights only)

LIGHT OUTPUT
Light Output is the total luminous flux. It is the total quantity of emitted overall light energy as measured by integrating the entire angular output of the portable light source. Light output in this standard is expressed in units of lumens.

BEAM DISTANCE
Beam Distance is defined as the distance from the device at which the light beam is 0.25 lux (0.25 lux is approximately the equivalent of the light emitted from the full moon "on a clear night in an open field").

WATER RESISTANT
Water Resistant – IPX4 Water splashed against the device from any direction shall have no harmful effects.

WATER PROOF/SUBMERSIBLE
Water Proof // **IPX7** – Ingress of water in quantities causing harmful effects shall not be possible when the enclosure is temporarily immersed in water under standardized conditions of pressure and time. **Submersible** // **IPX8** – Ingress of water in quantities causing harmful effects shall not be possible when the enclosure is continuously immersed in water under conditions which shall be stated by manufacturer, but which are more severe than for IPX7.

FL 1 STANDARD	FL 1 STANDARD	FL 1 STANDARD	FL 1 STANDARD	FL 1 STANDARD	FL 1 STANDARD
602 LUMENS	32h	430m	32252cd	IPX4	IPX7/IPX8

RUN TIME
Run Time is defined as the duration of time from the initial light output value – defined as 30 seconds after the point the device is first turned on – using fresh batteries, until the light output reaches 10% of the initial value.
PEAK BEAM INTENSITY
Peak Beam Intensity is the maximum luminous intensity typically along the central axis of a cone of light. The value is reported in candela and does not change with distance.

ANSI STANDARDS ☐ (AMERICAN NATIONAL STANDARDS INSTITUTE)

Why create standards? While Pelican was one of the first manufacturers to use quantifiable test procedures, the need was recognized to develop a common language that customers could use to select the right flashlight for their specific needs. As a result, the American National Standards Institute (ANSI), with input from the flashlight industry, developed performance standards and symbols to effectively communicate a flashlight's features and benefits.

The Resulting ANSI/NEMA FL 1 Standards include the following six criteria.

GLOSSARY OF TERMS

Candela A unit of measurement of the intensity of light that is emitted by a light source in a particular direction.

Lux The unit of luminous flux in the International System, equal to the amount of light given out through a solid angle by a source of one candela intensity radiating equally in all directions.

Lumen A unit of measurement of the amount of brightness that comes from a light source. Lumens define "luminous flux," which is energy within the range of frequencies we perceive as light.

Integrating Sphere An integrating sphere is a measurement device with an entrance port that can accept all the directional light output of the device under test, or can totally enclose the device itself. The walls of the sphere should be highly diffuse with high reflectivity (>80%) and the spectroradiometer should be shielded from direct view of the device under test by a baffle system.

IP (Ingress Protection) – These ratings specify the environmental protection the enclosure provides. The IP rating normally has two numbers (IPXX).

The first number represents protection from solid objects or materials (dust) where as the second number represents protection from liquids (water). With the IP rating IP 54, 5 describes the level of protection from solid objects and 4 describes the level of protection from liquids as described by the IP Rating System (Solids vary from 0-6 IP rating , Liquids vary from 0-8 IP rating).

Rechargeable Denotes a flashlight which contains rechargeable batteries and charging station. These models are shown with the rechargeable icon. ♻

SEE SPECIFICATIONS CHART FOR ADDITIONAL LIGHT PERFORMANCE DATA | PERFORMANCE DATA IS TO FL 1 STANDARDS (APPLIES TO FLASHLIGHTS ONLY)

PELICAN **LIGHTS CATALOG**
NEW DEEP MOUNT LED TECHNOLOGY

Our engineering team has designed a new high performance LED lamp module (Deep Mount LED Module). These lights are now brighter, with close to 100% increase in lumens and a 2.5 times increase in lux value over previous versions (as well as offering a more robust design).

A   New deep dish reflector provides up to 2.5 times lux increase, and 100% lumen increase

B   Robust, over-molded polycarbonate lens won't yellow

C   Opti-mechanical design gathers and focuses 100% of the light

D   LED is mounted directly to the PCB board, creating a strong and efficient design solution

SAFETY.

YOUR PASSPORT THROUGH HAZARDOUS LOCATIONS

Whether working in a **Class I** Oil Refinery or in the silo of a **Class III** Textile Mill, safety is always a concern and your lighting tool shouldn't add to your worries. Pelican builds lighting tools approved for any work environment. In fact we make more safety approved lights certified for **Class I II III Div. 1** and groups **ABCDEFG** than anyone else. To find the right light for your job visit us at Pelican.com/safety.

HAZARDOUS AREA ELECTRICAL GUIDELINES

CLASSIFICATIONS		SUBSTANCE	TYPICAL ENVIRONMENTS
CLASS I	DIVISION 1	Flammable Gases, Vapors, or Liquids	Oil Refinery, Paint Warehouse Spray Booth, Offshore Oil Rig
	DIVISION 2		
CLASS II	DIVISION 1	Combustible Dusts	Coal Mine, Munitions Factory Grain Silo, Hay Storage Facility
	DIVISION 2		
CLASS III	DIVISION 1	Ignitable Fibers & Flyings	Paper Mill, Woodworking Facility Textile Mill, Cotton Gin
	DIVISION 2		

Division 1 (hazard likely): Where volatile substances can exist all of the time or some of the time under normal operating conditions.
Division 2 (hazard not likely): Where volatile substances are not likely to exist under normal operating conditions.

RALS
REMOTE AREA LIGHTING SYSTEMS

Providing increased performance, safer working conditions, emergency preparedness and greater flexibility, Pelican's RALS line is the modern alternative to generator based lighting:

- Silent performance
- No flammable fuel
- Eliminated trip hazards
- No exhaust fumes
- Remote activation

RIGHT ANGLE LIGHTS

Firefighters put everything on the line and the correct lighting tools are critical. Right angle (90°) flashlights often worn on turnout coats offer hands-free performance. With extreme peak beam intensity and smoke-cutting penetration, these lights will get you in and out of tough situations safely.

CUSTOM
LABELS

Pelican Products offers the ultimate in private labeling. You can put your company name and logo or a special statement on many Pelican lights. Our in-house private label molding and production department has complete short and long run capabilities for a variety of custom applications and custom colors. We have the latest hot stamping equipment, utilizing the world's most durable inks and foils in our screening, hot tipping, embossing, and molding programs.
GRAPHIC DESIGN STUDIO
Our in-house graphics studio will take your logo and size it appropriately to the flashlight of your choice.

HOT STAMPING
Our hot stamping department, equipped with the latest technology in custom imprinting. Minimum quantities apply

100% ACCURACY
Pelican's strict QA inspection team will check for quality of print and 100% accuracy in color and placement.

FLASHLIGHTS PELICAN LIMITED LIFETIME GUARANTEE OF EXCELLENCE

Pelican Products, Inc. guarantees its lights for a lifetime against breakage or defects in workmanship. This guarantee does not cover the lamp or batteries. All warranty claims of any nature are barred if the product has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident. For complete warranty details, see http://www.pelican.com/warranty. In Australia: www.pelican.com/warranty/australia.

REMOTE AREA LIGHTING SYSTEMS PELICAN
1 YEAR LIMITED WARRANTY FOR RALS PRODUCTS

Pelican Products, Inc. guarantees to the original purchaser of its **RALS** products that its products will be free of defects in materials and workmanship for one year from the date of purchase. All warranty claims of any nature are barred if the product has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident. For complete warranty details, see http://www.pelican.com/warranty. In Australia: www.pelican.com/warranty/australia.
